ROCK BUCKET

MODEL NUMBER: XRB-7823-3 | **WIDTH:** 78" | **WEIGHT:** 850 lb
MODEL NUMBER: XRB-8423-3 | **WIDTH:** 84" | **WEIGHT:** 900 lb

OVERVIEW

With its robust and high-strength skeletal structure coupled with a sleek profile, the Vail Products Rock Bucket stands out as the ideal attachment for efficiently eliminating and segregating undesirable rocks, stones, concrete, brush, and debris. Engineering with a focus on achieving maximum rollback capability, this bucket enables the retention of sizable quantities of bulky rocks, brush, and debris within its confines during sifting, effectively isolating the finer desired materials. Crafted utilizing dual steel reinforcement, the Rock Bucket ensures the provision of desired leverage and essential breakout force.
