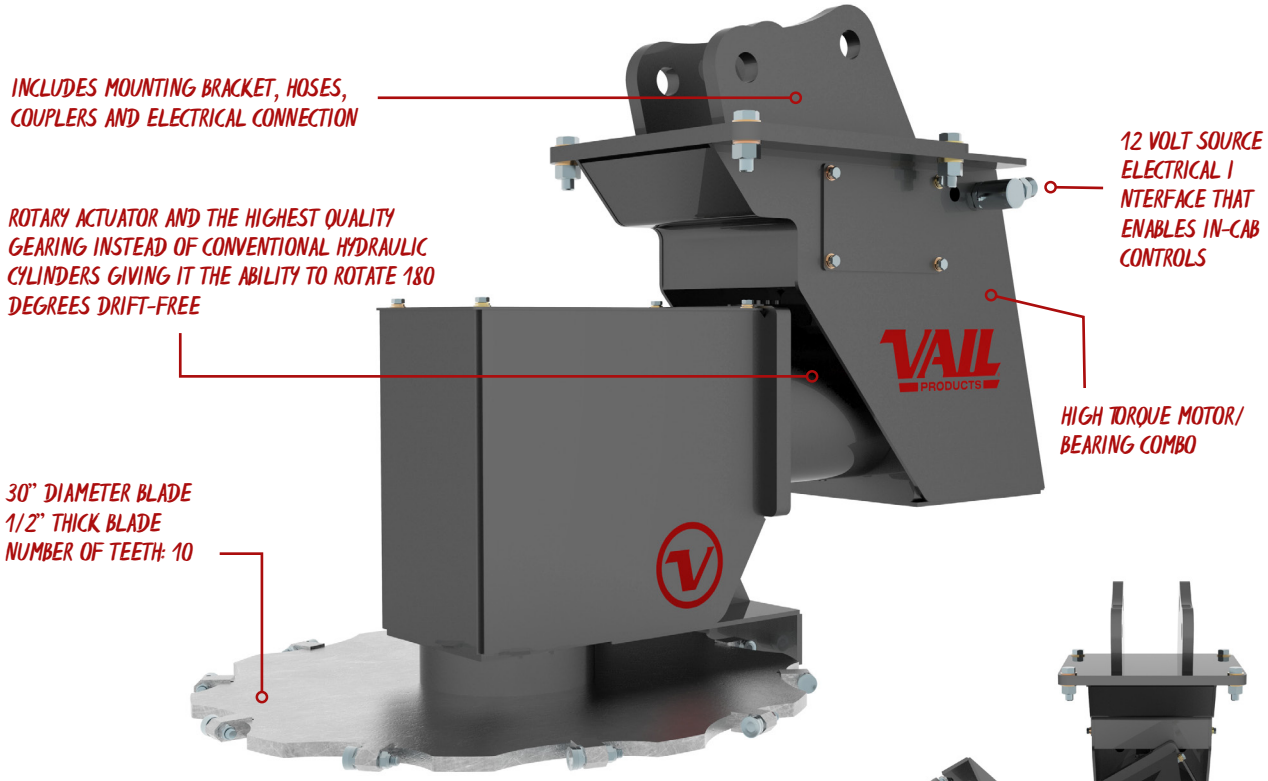
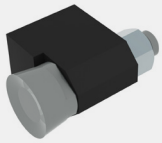
MX TREE SAW

MODEL NUMBER: MXTS-3015-RG
WIDTH: 30” | **LENGTH:** 50” | **HEIGHT:** 27”
BLADE: 30” | **FLOW:** 12-20 GPM | **WEIGHT:** 700 lb
OPERATING MACHINE WEIGHT: 7,000-20,000 lb

OVERVIEW

The MX Tree Saw encompasses identical attributes to its CTL forerunner, now tailored to suit the mini-excavator model. It’s plug and play ready, complete with the necessary mounting bracket, hoses/couplers, and electrical interface. There’s no need for a case drain line. The head, powered by a rotary actuator, empowers operators with precise control over the angle of attack, ensuring efficient and secure removal of trees, limbs and brush.





3 SIDED, 1.125” THICK CIRCULAR CARBIDE TOOTH FOR MAXIMUM WEAR LIFE
